

## Walkthrough for Brainstorm Dial-Up Account with Windows 95

This is a step-by-step walkthrough for configuring your computer to use your Brainstorm dial-up account. If you have any problems call us at our toll free number 1-877-651-6299. We are open Monday thru Friday from 8am- 10pm and Saturday thru Sunday from 9am- 6pm.

### Windows 95 Dial-Up:

1. Double-click on **My Computer**
2. Double-click on **Dial-Up Networking**
3. Double-click on **Make New Connection**
4. Enter **Brainstorm** where it says **My Connection** for the name of the computer you're dialing.
5. Click **Next**
6. Leave the area code blank. Type in the correct dial-up number for the city that is local to you. Here's a list of cities with their corresponding dial-up numbers:
  - Durango: 247-7798
  - Farmington: 716-4042
  - Grand Junction: 241-0044
  - Montrose: 240-2794
7. Click **Next**
8. Click **Finish**
9. Right-click on your **Brainstorm Icon** connection
10. Then left-click on **Properties**
11. Make sure the checkbox on the bottom that says **Use Country Code and Area Code** is unchecked.
12. Click on the **Server Types** buttons.
13. Make sure that only **Enable Software Compression** and **TCP/IP** are checked.
14. Click on **OK** on the bottom
15. Right-click on the **Brainstorm Icon** again and then left-click on **Create Shortcut**
16. Click on **Yes** when the window pops up.
17. Close the dial-up networking window by clicking on the **X** on the upper right hand corner
18. Double-click on the **Shortcut to Brainstorm** icon on your desktop
19. Type in your username (ex: **username@gobrainstorm.net**) and **password**
20. Click on **Connect** and this will establish your internet connection.
21. Open **Internet Explorer** to surf the web or open **Outlook Express** to check your email. You can also check your email by going to [www.gobrainstorm.net](http://www.gobrainstorm.net) and clicking on the link for webmail.
